i.e. INNOVATIVE ENERGY, INC.

Temperature Comparison

Testing was conducted in a controlled environment using a standard corrugated box lined with an InsulTote insulated box liner. Items placed inside the liner were (12) 4.25 oz candy bars and (4) coolant bricks.

InsulTote products give you confidence when shipping food, chocolate, medical supplies or any other temperature-sensitive items. They abate heat intrusion or heat loss, keeping your items at ideal temperatures whether **hot or cold**.

Not only do we supply standard items like insulated bags, insulated box liners and insulated pallet covers, but we pride ourselves in offering custom-tailored solutions to best suit your needs.

InsulTote® Products

- Abate Heat Gain or Heat Loss
- Custom Sizes Available
- Reduce Warehouse Storage Needs
- Can Be Reused and Repurposed
- Cushion as They Insulate, Protecting Your Contents
- Decrease the Size and Amount of Gel Packs Required
- Take Up a Fraction of the Space as Compared to EPS Foam

BOX LINERS

InsulTote box liners turn any box into an insulated shipper. InsulTote liners are a cost-effective alternative to bulky insulated boxes and are comparable to EPS up to 1.25" wall thickness. Available in virtually any size with no minimums and no up charge.

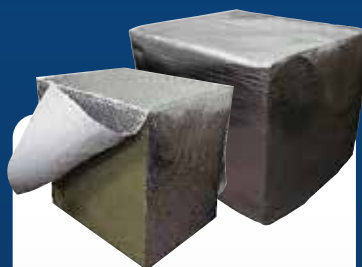

MAILER POUCHES

InsulTote pouches offer ideal protection for flat or smaller items because they cushion as they insulate and can be made in custom sizes. No exterior box needed.

CUSTOM SOLUTIONS

Whether large or small, hot or cold, InsulTote products can be tailored to any size, shape or style. We'll work with you until our design meets your needs.

PALLET COVERS

InsulTote pallet covers are available in a variety of sizes and can be produced in a seamed or flap style to make protecting cargo that much easier.

GEL/ICE PACKS

We offer a variety of reusable cold packs, including moisture resistant styles, that help maintain ideal temperatures for your items.

CONTAINER LINERS

InsulTote container liners are designed to insulate shipping containers. Container liners enable the goods within to be protected from dangerous temperature spikes during transport. Easy to install and remove.

GARAGE DOOR INSULATION KITS

Our garage door insulation kit material consists of two layers of polyethylene bubble film sandwiched between two layers of metalized film. Blocks 95 percent of radiant heat.

ROLL STOCK

Rolls of our packaging-grade reflective bubble material are available in a wide variety of sizes so you can receive exactly what you need.
